

**U.S. ENVIRONMENTAL PROTECTION AGENCY
INITIAL and FINAL POLLUTION REPORT**

DATE: 16 APR 03

FROM: John Nolen, OSC
USEPA Region 4

TO: S. Hitchcock, EPA
Region 4, RRC
GA EPD

I. GENERAL SITE INFORMATION

Site Name: Bondo Corp. Resin Spill
Street Address: 3700 Atlanta Industrial Blvd
City, County, State: Atlanta, Fulton County, Georgia
Site Number: None

Response Authority: CERCLA
NPL Status: Non-NPL
Incident Category: Emergency Response
State Notification: GAEPD
Start Date: 16 APR 03
Completion Date: 16 APR 03

II BACKGROUND INFORMATION

- A. **Type of facility or Site:** Manufacturing
- B. **Site Description:** On 15 April 2003, Bondo Corporation released approximately 80,000 pounds of a polyester resin containing styrene during operations due to a tank overflow. The material breached the containment through cracks in the concrete block containment wall. Approximately 50 gallons spilled outside of the containment and onto the ground surface. The material is classified as flammable due to a flash point between 80 - 90 degrees F.

III RESPONSE INFORMATION

- A. **Actions Taken:** The facility hired Shaw Environmental to clean up the released material. Contractors pumped the majority of the spilled resin back into storage tanks. The residual resin on the floor of the containment area will be removed with an industrial cleaner and shipped offsite for disposal. Contractors excavated the remainder of the

spilled resin into rolloff boxes awaiting offsite disposal. The viscosity of the material only allowed for shallow penetration of the resin into the surface soil and no surface waters were impacted by the release. Ga EPD emergency response personnel were on scene during the remediation. Ga EPD will issue a Notice of Violation to the company and require them to make repairs to their containment and install a high level liquid alarm system on the above ground storage tanks.

- B. **Future Actions:** Ga EPD will oversee the remainder of the remediation efforts at the site and will continue to work with the facility on the repairs and improvements required.

IV ESTIMATED COSTS

EPA \$120

V ROSTER OF AGENCIES/ORGANIZATIONS ASSISTING IN REMOVAL

Organization/Agency	Primary Contact	Phone Number	Role/Activity
EPA	John Nolen	404.562.8750	Federal OSC
TW Higgins Consulting	Thomas Higgins	386-956-1599	Consultant
GA EPD	Mike Derrick	404-656-6905	State Emergency Response
Shaw Environmental	Scotty Lyle		Cleanup Contractor
